In funding this project you agree to the following terms and conditions:

1. The Government has hidden better, more affordable alternatives to HS2.
2. Trains will be more crowded than if we had gone for a more affordable alternative.
3. Many of the benefits claimed result from pretending time on trains cannot be productive.
4. HS2 will not create 40,000 jobs. Most will be shifted from other places or be temporary.
5. Over 70 per cent of the permanent jobs will be in London - so no help on the North-South divide
6. The Government's preferred compensation option leaves households seriously out of pocket. Tough.
